To: Linda Lacelle
Cc: Chris Provencal; Melanie Fauteux
Subject: D350-794 Aux Tank

Linda,

With respect to the 350 aux tank, could you please have the fitting removed for closer inspection? I would suggest we install the new D4000-1 Fuel Supply Fitting after forming the mating surface of the tank as flat as possible. Re-install with copious amount of Proseal 890. I also recommend a generous fillet seal with Proseal 890 around the D4000-1 Fuel supply fitting. I will sign off the work order as required.

The above is a quick fix. Given the timeline I think it would be unrealistic to redesign the problem areas within a reasonable amount of time. Not to mention that a proper re-design would inevitably scrap the current tank in wip. Not only do I not recommend that we scrap the tank but I wouldn't have the authority anyways even if we did want to.

Alex
